SUMMARY

Experienced Front-End Developer with a passion for creating visually appealing and user-friendly websites. With a solid foundation in HTML, CSS, and JavaScript, I possess a deep understanding of front-end development principles and best practices. Proficient in modern frameworks and libraries such as React and Angular, I excel in translating design mockups into responsive and interactive web experiences. I am highly skilled in optimizing website performance, ensuring cross-browser compatibility, and implementing SEO (Search engine optimization) techniques. Collaborative and adaptable, I thrive in fast-paced environments and am adept at working closely with designers, back-end developers, and stakeholders to deliver high-quality projects within deadlines. I am committed to delivering seamless user experiences and driving innovation in front-end development.
